AES Builders and Remodeling
Mr. Tim Munson and AES Staff
6519 Golden Ring Road
Baltimore, MD 21237

Dear Tim;

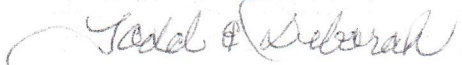

We recently chose your company to perform a major front porch repair. We chose your company because of its excellent reputation. Now that the work is completed we can say that we are very pleased. In fact we are very, very impressed as well as happy with the quality of the work that was done; furthermore, we are equally impressed with the two workers who performed the job.

Jeremiah and Conan were our craftsmen. It took them 7 business days to complete the job. Please know that all of those days brought humid and extremely hot temperatures (in the 100's.) Those conditions were brutal for anyone to endure and Jeremiah and Conan endured, never slowed their pace and continued to perform quality work. Their demeanors and attitudes remained courteous and pleasant throughout the project. They are to be commended greatly and they represented themselves, and your company, with the utmost of professionalism. Special kudos to them and additional kudos to those of you behind the scenes that made the project happen to our great satisfaction.

We would definitely recommend AES Builder and Home Improvements to anyone who had a remodeling need. From our experience we would have to tell them that "they can't go wrong."

We send our sincere thanks to you and Jeremiah and Conan.

With sincere gratitude,

Todd and Deborah
